

Endodontic Record

Faculty of Dentistry, Chiang Mai University

HN : 5

Patient's name: Jame Smith **Age:** 19 **Gender:** F

Patient's History

Medical History

☐ None ☐ Cardiovascular Diseases ☒ Pulmonary Diseases ☐ Gastrointestinal Diseases
☒ Hematologic Diseases ☐ Neurologic Diseases
☐ Allergic to : ☐ Blood Pressure (if needed):
☒ Other : eiei ☐ Taking medicine :
Personal Doctor : Jame smith Tel : 0940460283
Remark :

Dental History

Chief Complaint : eiei1
History of Present Illness :

Examination

S.Subjective Symptoms

Pain intensity: severe
Pain Character: throbbing
Onset: Stimulation Required()
Duration: constant
Location: diffused
☐ Radiating to
☒ Referred to 23

O.Objective Symptoms

Extraoral: ☒ Facial Swelling:
 ☒ Lymph Node:
 ☒ Sinus Tract:
 Other: eiei2
Intraoral: Sweling(Firm) area : 23
 ☒ Sinus Tract at : 21
Tooth: ☒ Caries
 ☐ Restoration with :
 ☐ Pulp Exposure
 ☒ Pulp Polyp
 ☒ Fracture at 21
 ☐ Crown Discoloration to
 ☒ Opened for Drainage
 ☐ Temp. Restoration
 Other: eiei3

Examination:

Tooth	EPT	Cold	Heat	Perc ⁿ	Palp ⁿ	Mobility	Pero Probe (mm)						Special Test (if necessary)
							MB	B	DB	ML	L	DL	
23	20	-	-	-	-	2 ⁰	2.5	1.5	1.0			4.5	dye test

Radiographic findings

Crown:	<input checked="" type="checkbox"/> Normal	<input type="checkbox"/> Caries area : depth :	<input type="checkbox"/> Restoration
	<input type="checkbox"/> Fracture	Other :	
Pulp Chamber:	<input type="checkbox"/> Normal	<input type="checkbox"/> Calcification	<input checked="" type="checkbox"/> Pulp Stone
	<input checked="" type="checkbox"/> Resorption	Other :	
Root:	<input checked="" type="checkbox"/> Normal	<input type="checkbox"/> Caries	<input type="checkbox"/> Curvature
	<input type="checkbox"/> Ext. Resorption	<input type="checkbox"/> Fracture	Other : eiei5
Pulp Canal:	<input type="checkbox"/> Normal	<input checked="" type="checkbox"/> Calcification: Complete	<input checked="" type="checkbox"/> Resorption
	<input type="checkbox"/> Perforation	<input type="checkbox"/> Previous RCT	<input type="checkbox"/> Broken Instrument

Remarks:	kiki		

Diagnosis

Pulpal Diagnosis

- ☐ Normal
- ☒ Reversible Pulpitis
- ☐ Irreversible Pulpitis
- ☐ Symptomatic
- ☐ Asymptomatic
- ☒ Pulp Necrosis
- ☐ Previously Initiated Therapy
- ☐ Previously treated

Periradicular Diagnosis

- ☐ Normal
- ☒ Symptomatic Apical Periodontitis
- ☐ Asymptomatic Apical Periodontitis
- ☐ Acute Apical Abscess
- ☒ Chronic Apical Abscess
- Other :

Treatment Planning

- ☐ No Treatment
- ☒ Pulpotomy: Full
- ☐ Pulpectomy
- ☐ Non-surgical Root Canal Treatment
- ☐ Non-surgical Retreatment
- ☒ Apexification
- ☐ Intentional RCT
- ☒ Surgical Root Canal Treatment
- ☐ Perio Consult

Other : kiki2

Plan for final restoration: pppp

Pre-op treatment: ☒ Caries Removal ☐ Dam Other :

Anesthesia: ☐ Required ☒ Not required
